

# Citrix XenDesktop – Installing the 'Citrix Workspace' (Windows)

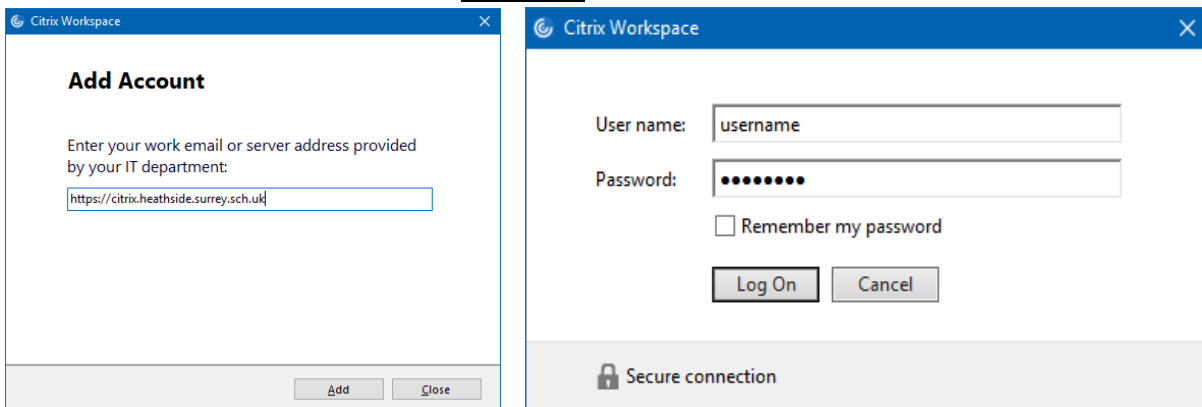

Go to <https://www.citrix.com/downloads/workspace-app/windows/workspace-app-for-windows-latest.html>

and click the big blue download button for Windows.

The installation process is pretty straightforward. When the installer has finished, click the 'Add Account' button.

Enter server address provided and click add to continue, then enter your school username and password to log into Citrix Workspace. If asked anywhere for the 'domain', enter HEATHSIDE.

Below shows the Citrix Workspace window after logging in. Click on "+" button to add Full Desktop application to the main screen.
